[info@goldennectarfarm.com](mailto:info@goldennectarfarm.com)

Our farm in Windsor, CA is 2.4 acres, with about 200 varied fruit trees with unique and heirloom varieties, amazing table grapes and more! We practice regenerative agriculture, building up the soil and ecosystem as we farm.

Our orchard and vineyard were planted by Paul Vossen about 40 years ago, as an experimental farm to explore growing specialty crops. We tree-ripen and hand harvest all of our fruit

Category	Fruit / Crop	Harvest Window	Notes
Table Grape	Centennial Seedless	Mid-Season (Aug)	Crisp, honeyed flavor
	Fantasy Seedless	Mid (Aug)	Sweet, dark, uniform color
	Black Emerald	Mid (Aug)	Firm, rich sweetness
